

# Rise to the Challenge: Most Accomplished Green Building

## Ivywild School

Jim Fennell

Ivywild School is a place where neighbors, friends, colleagues and visitors can meet and mingle. A place where you can enjoy great local fare and share ideas. But it's also much more than that. It's a flourishing communal atmosphere linking commerce and community with gathering spaces, local cuisine, education, art and gardens. Formerly an elementary school, Ivywild's facade still holds true to its roots as reimagined spaces fill the halls once again with the voices of children and adults alike.

Ivywild School is a collaborative transformational project that has catalyzed a neighborhood revival through creating a unique treasured community asset.

Ivywild demonstrates a symbiotic regenerative business model that strengthens small businesses and amplifies the value of sustainable practices.

Ivywild creates a sense of place and a regional identity that encourages creativity and experimentation through building reuse and smart design.
